TRAVEL

Want to do a 10 day to Britain in August 2011; we have all that mapped out. Save thousands and eTravel worldwide. Visit the six little piggies from Bucklebury. Call 937-210-2071.

ECONOMICS

The operative word is "bail-me-out" from Wall Street to Main Street. House values have fallen .. they say 18% .. hmmm; food prices are rising. Great time to consider refinancing if your loan is within 2% point of current banking rates. The foreclosure issue will be protracted as blame and responsibility settle out. Many homeowners are abandoning their mortgage back to the bank.

With the inordinate cost of new cars, used [pre-owned] car are popular and former year to year prices drops have slowed dramatically \$ 35,000 new to \$ 2500 nine years later; extrapolate that [do the math]. Most foreign used cars sell for 3X the cost of an American counterpart .. that's reflective of bankrupt Detroit and industry greed. How embarrassing is that ! American Manufacturers need to cut prices 50% resist buying and all the other gimmicks; during our 'recession' call your own price NEGOTIATE ..otherwise walk away ! With rising petroleum products taxpayers are now paying for the BP spill.

PERSONAL

Daughter Deidre and Juan married June 13; they live in Glasgow, Kentucky and he teaches at Western Kentucky University. A successful and quiet year until a September fire followed three days later by a motorcycle accident which resulted in pinning up a fracture left fibula / tibia and ankle bone with a plate and screws; being a Type II diabetic got me an eight week 'scarlet and gray' caste due to come off around Thanksgiving. Following that I'll outpatient and get ready for a Florida winter vacation. Pray for our Troops. If you have a Merry Christmas [keep Christ in Christmas] you'll have a Happy New Year.
